

Long Width Slit Light Guides

180mm wide slit light guide can be connected to achieve joint-less, even, and bright slit light in lengths of 180mm multiples. Long products from 360mm to 1,440mm can be manufactured. Useful in LCD and PDP glass substrate inspection, sheet-type product inspection, and other line CCD camera applications.

Model explanation

MFK - 2000S - SRM

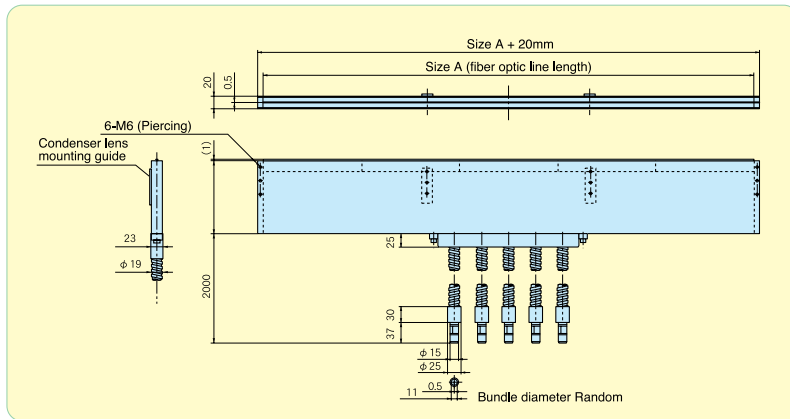

Fiber type

Line length

G=Glass
P=Plastic

Slit light guide (glass fiber)

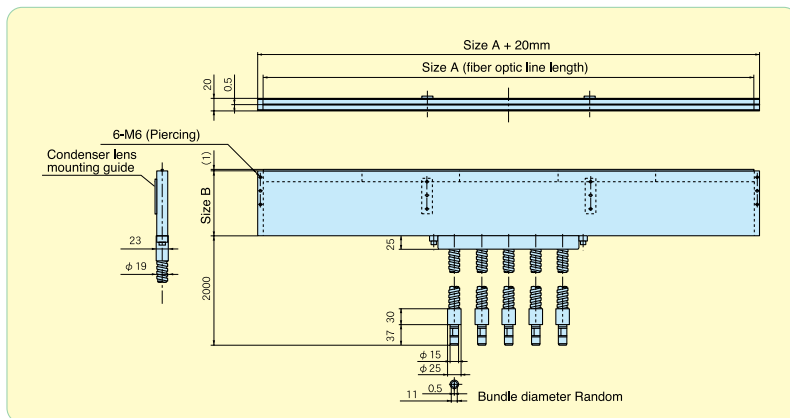

MFKG SERIES Made to order

Model	A(mm)	B(mm)	No. of incoming radiations
MFKG360 -2000S-SRM	360	100	2
MFKG540 -2000S-SRM	540	100	3
MFKG720 -2000S-SRM	720	150	4
MFKG900 -2000S-SRM	900	150	5
MFKG1080 -2000S-SRM	1080	150	6
MFKG1260 -2000S-SRM	1260	150	7
MFKG1440 -2000S-SRM	1440	150	8

Slit light guide (plastic fiber)

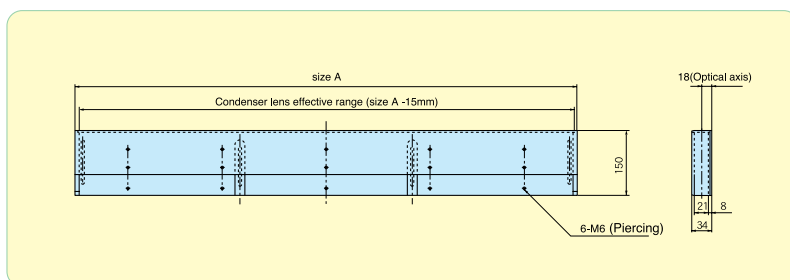

MFKP SERIES Made to order

Model	A(mm)	B(mm)	No. of incoming radiations
MFKP360 -2000S-SRM	360	100	2
MFKP540 -2000S-SRM	540	100	3
MFKP720 -2000S-SRM	720	130	4
MFKP900 -2000S-SRM	900	130	5
MFKP1080 -2000S-SRM	1080	130	6
MFKP1260 -2000S-SRM	1260	130	7
MFKP1440 -2000S-SRM	1440	130	8

Condenser lens for long width slit light guides

MLL SERIES Made to order

Model	A(mm)
MLL-360	396
MLL-540	576
MLL-720	756
MLL-900	936
MLL-1080	1116
MLL-1260	1296
MLL-1440	1476
