

Moticam 1000

Affordable High-Resolution Live Imaging Camera

Description

The Moticam 1000 is a competitively priced high-resolution live imaging microscopy camera. With a live image of 1280x1024 pixels, this image can be projected in any lecture or classroom environment without fear of pixelation. Enjoy crisp and clear live images.

Motic Images Plus is an imaging suite included for both PC and Macintosh OSX platforms providing measurement, analysis and sharing tools for teachers, students and researchers alike.

With all necessary accessories included, the Moticam 1000 fits virtually any Microscope's eyepiece therefore allowing you to turn any microscope into a Digital Microscope.

Moticam 1000
