

## Micro Case Series™

### #1040 Micro Case

The new #1040 Micro Case is part of the Micro Case Series™, a new range of cases to protect your valuable small items. They have the same look as larger Pelican, plus they combine a new attractive style, and offer the legendary strength of Pelican Protector Cases™.

With the new Micro Cases you will be able to protect your cell phone, photographic camera, Personal Digital Assistants (PDA), electronic games, pager, radio, and other valuable small items. Micro Cases will totally protect your valuables, as they are watertight, airtight, crushproof and have an automatic pressure purge valve. Every Micro Case is available in solid color or clear with matching liner and speed lock. They include a ring and a lanyard for easy attachment.

Micro Cases are excellent for trips or outdoor activities when you need to protect your valuables from water, falls, knocks, sun, atmospheric changes, etc. and they are small enough to fit into luggage, bags, glove compartments, other Pelican Protector Cases™ and so on.

And remember, smaller does not mean less strong. Micro Cases are just as durable as the larger models. You break it, we replace it... forever.
