

IR-Filter Sheet

Ideal for covert camera installation.

The IR-filter sheet is available in 1m x 1m x 6mm (45"x45"x0.25") size. Monochrome cameras can be placed covertly behind this filter sheet to view activities right through the IR filter material while not visible to anyone on the other side.

Normally we sell these in 1m x 1m panels, but they can be cut to customers specification as well.
