

SOLO - OEM AND BESPOKE APPLICATIONS

OEM applications

domo can offer a range of PCB level product opportunities for OEM applications. Standard designs such as those used in our range of SOLO2 and SOLO4 products can be offered, or unique design work can be undertaken which allows bespoke requirements for interfaces, power supply arrangements and form factor to be met.

Collaborative development programmes with our customers can be undertaken to fulfil specific needs in the RF designs. The domo team have developed video solutions for UGV and UAV applications.

Bespoke applications

Bespoke products can also be offered to ensure optimal integration between our standard technology building blocks.

Typical domo bespoke applications:

- Installation of a central receiver and integration into wired systems
- Installation of domo systems into special enclosures such as suitcases
- Site surveys and advice on installation of fixed infrastructure systems
- Applying the technology into new scenarios and environments
- Special testing, waterproofing and rugged enclosures
- Point to point wireless IP link equipment
- Relays and custom control solution for aircraft fitment
- Rebroadcast units to bring back video and audio TX from difficult environments.

OEM applications

Bespoke applications

Products are available to security users only, in licensed frequency bands. These products are not approved for use by unlicensed users. Commercial products are available to unlicensed users - contact domo direct for details.

domo

domo is at the forefront of innovation, developing technologies in the fields of digital wireless, video, audio, telemetry and IP.

Our key technology expertise is in digital video processing, digital modulation and Internet Protocol (IP) interfacing.

Our strength is in adapting complex technologies into simple-to-operate, robust solutions.

Our team of dedicated **domo** engineers is continually developing new solutions directed by demanding customer requirements in fields such as:

- Police Forces
- Security Services
- Special Forces
- Homeland Security Agencies
- First Responders
- Fire Services
- Port Security
- Traffic Management Agencies.
